

## **PROCUREMENT POLICY**

At Vasia Hotels & Resorts, our senior managers are committed to handle responsibly our procurement and addressing mainly to local suppliers for products and services in order to promote environmental, communal and financial sustainability and encourage our suppliers to do so themselves.

### **Goals**

Through our procurement policy we will:

- Seek for the highest quality we can afford.
- Have our equipment and furnishment repaired or serviced whenever possible rather than replace them.
- Choose environmental friendly energy installations and search for updated energy alternatives.
- Try to purchase only non-harmful and biodegradable cleaning products and paints instead of products containing toxic substances.
- Avoid outsourcing our housekeeping operations as much as possible.
- Buy products made from recycled materials or products that can be upcycled.
- Favor for non- disposable products.
- Be in communication with our suppliers regarding their products and their own sustainability policy the reduction of negative environmental impact.

Vasia Hotels & Resorts aims to constantly improve its procurement standards and business relations with local suppliers and attempts to create a more “green” state of mind for our trades.

The Vice President of Vasia Hotels & Resorts

George Chondrakis
